

Drum Mixers are light and portable, easy to install and provide cost effective mixing for a range of products in standard 210 litre drums,

### BUNG HOLE MOUNTING

Drum mixers utilise a bung hole adaptor incorporate a threaded stainless steel nipple to facilitate mounting directly on the 2" bung on 210 litre drums.

### IMPELLER

For effective mixing on a range of products E-200 folding impellers are used which fit through the standard 2" bung hole and open up in the drum to promote effective mixing.

### CLAMP ON MIXERS

Mount directly on the drum rim on drums with a removable lids.

### DIRECT DRIVE DRUM MIXERS

Are available with electric or air motors.

### ELECTRICAL MOTORS

380 - 415v / 3ph or 220 -240 or 110v single phase.

### AIR MOTORS

Provide the benefit of variable speed by controlling the air flow to achieve the optimum level of mixing.

## ATEX

Drum mixers are available for use in hazardous areas with potentially explosive gas or dust environments. - our engineers will be pleased to advise.

## MIXER SELECTION

Portable mixers with clamp, cup plate or Bung hole mounting mixers are a low cost and effective solution for small batch applications. Our application engineers will be pleased to advise on mixer selection for your application.

MIXER MODEL	MOTOR K/W	SHAFT DIAMETER	IMPELLER TYPE	MOTOR
DP-25E-BUNG	0.25	13mm	E-200 Folding	Electric
DP-25 AIR-BUNG	0.25	13mm	E-200 Folding	Air
